There are many hits and misses in this business. There are many more near misses that only we and our trusted linotype operator, Joe Collins, know about. Last week we nearly had a dilly in reporting a church party in which the male members of the group were entrants in a beauty contest.

Very amusing names such as Miss Shapen, Miss Fortune and Miss Led were given the aspiring beauties. The first proof of the story came through (and you followed copy, Joe) like this: "Miss Shapen was crowned—given a loving and thrown back into the pool." Fortunately, we caught the error on the page proof and added "cup" to make it a more respectable item... "loving cup" being awarded the winner.

You can't say the Chamber of Commerce isn't on the ball these days. Next month a committee of the civic group will meet to discuss Christmas decorations.

We all know that our dollar goes farther in Sierra Madre. One of the reasons lately, of course, is the difference in sales tax. Some of our neighboring communities have raised the sales tax to 4 per cent while others have a 3½ per cent sales levy. Ours is only 3 per cent... makes quite a difference in a year's time.

Around the Square

By VERA H. LUMBARD

The mystery of what's been happening to Noren Eaton's morning newspaper is going to have to remain unsolved, it seems. He says that's too early in the a.m. to get up and do any sleuthing.

One recent August morning he had read the paper a good 10 minutes before fully realizing that the "news" was strangely familiar. Modestly acknowledging to himself that he wasn't THAT prophetic, he looked at the date—July 22. The Sunday before, he had found his paper on a post in front of his house, unfolded and the comics missing. These he later found carefully stashed, not blown, under a shrub.

Who'dun it? Who knows? These and a couple of similar incidents, including the morning he was really frustrated—no paper at all—he blandly attributes to Gremlin. Says he has complete confidence in Distributor Tommy Miller.

If he ever finds where the "Gremlin" lives, tho, he threatens to put the Daily Worker on HIS doorstep.

You think YOU'VE got troubles.

The Lincoln Pittingers' family cat just presented them with eleven (11) kittens.

See by the newspaper that Architect Mac Cason is chairman of the Rose Parade Float Theme and Design committee. Theme and Design? Being next door neighbor to Mac and his workshop we had sort of concluded he had the float just about ALL BUILT.

We are inclined to think the local Demos have a mighty good candidate for public office in their ranks in Page Dougherty (pronounced Dock-erty). This personable gal who moved here a year ago from Fairfield County, Conn., had a few words to say at the City Council meeting the other night and what fine presence and well-ordered thinking she displayed in the delivery of a few crisp sentences. OF COURSE, she doesn't have enough to do, what with "making Mister Dougherty happy" (as that Godfrey says), rearing four children, vice-presiding and program chairwoman for the PTA and trying to get a little writing done in between.

All you tardy library book borrowers might as well shed that guilt complex. Library Board President Webster Vanier let it be known at a council meeting that, since one of the library's two sources of revenue is fines, the librarians rub their hands in glee when books are overdue. They want a new building and equipment THAT much.

PETERSON VARIANCE PROTESTED

Nursery School Has Extension to Oct. 1

The Planning Commission, in an adjourned meeting Monday night, extended to Oct. 1 the conditional variance permit under which Mrs. Charles Peterson operates a small nursery school at 71 Suffolk in an R-2 zone. This action, the same as that taken "out of turn" by the City Council recently, followed the necessary public hearing in which much the same protests were recorded as at past hearings on the "Mama Pete" nursery school situation.

Kay Kalicka, planning consultant to the City, explained the extension on the basis that the entire zoning ordinance of the City is under study and recommendations and revisions—possibly applicable to this, will be forthcoming.

Council Hearing Aug. 24 Also pertaining indirectly to the Peterson nursery school, will be the City Council's public hearing next Tuesday on the application for revision of the R-2 zone provisions to include small nursery schools of 10 children or less in that zone. This was denied by the Planning Commission recently, also with the understanding that the matter would be given consideration by the planning experts now studying the ordinance.

Among those filing written and verbal protests to the extension of the variance were: Mrs. Marilyn Howard, 30 Suffolk; Mrs. Effie Milton, 61 Suffolk; Mr. and Mrs. William J. Rogers, 40 Suffolk; Mabel B. Sturdevant, and Marjorie G. Ward, 62 Suffolk.

Tract Map Approved The Planning Commission granted approval, with certain recommendations, to the tentative map of Tract 17951 (Lannan). The subdivider is Jean Lilliano. The map will go to the City Council for approval. A lot split was granted to Jack de Clercq, 232 E. Monte-

Kiwanis Host Explorers; All Hear Advice on Tooth Care

Members and leaders of Boy Scout Explorer Post 378, Mount Wilson District, were guests of their sponsor, the Kiwanis club, at luncheon Tuesday in the Woman's clubhouse.

Pinch-hitting as speaker because of a last-minute program change, Dr. Al Burgess, local dentist, gave an impromptu talk which he entitled, "Be True to Your Teeth or They'll Be False to You."

He pointed out that the teeth are the only parts of the human body which are not self-repairing and he advanced the current theory that a high protein diet is regarded as a greater factor in preventing tooth decay. Milk and other calcium containing foods, he said, are of little value to the teeth after the age of two years by which time enamel on the teeth is already formed.

Present as guests were Bill Newberry, Explorer Post committee chairman; Dave Viera, assistant Post director, and 14 members of the Explorer Post, Lee Westhaver, Marcus Woodward,

GAILY COSTUMED "JUDY" is pictured above with a group of Monrovia children who obviously enjoyed a Punch and Judy show presented there by live pantomimists recently. The same "Judy" accompanied by Punch will appear in Sierra Madre City school cafeteria next Thursday afternoon.

"Punch and Judy and the Magic Blocks," one of the many legendary stories of medieval days depicting Punch as a juggler and Judy as a tightrope walker, will be presented by "live" comedians in a pantomime show next Thursday afternoon for Sierra Madre children.

Sponsored by the City Recreation department, two costumed members of Comedians, Inc., will present the show in the City school cafeteria at 1:30 p.m., Thursday, Aug. 25—admission, 10 cents. If there is a large turnout, according to Philip T. Mitchell, Recreation director, children and adults accompanied by children will be given first consideration.

Comedians Inc. is a company of San Gabriel Valley young people, mostly UCLA graduate drama students. It is rounding out its first year doing this sort of thing—bringing children's theater to various communities in the Valley and allowing youngsters to see at close range "theater" designed for them and presented in familiar surroundings.

Doris Dann of San Gabriel is director of the company and Herb Neiman of Hollywood is business manager.

The group also presented adult plays and pantomime during the winter season.

Following the Punch and Judy show here next Thursday the children will be invited to ask questions and to inspect the "props" and costumes. Shows have been given recently in Monrovia, Covina, San Gabriel, LaVerne and El Monte.

Hope Expected 'Sometime' for Film Scene Here

There's been a good bit of activity centering around 225 N. Lima St. the past few days where Paramount Movie corporation crews have been preparing the setting for scenes for the upcoming movie, "Eddie Foy and the Seven Little Foys."

The 60-year-old, Victorian frame building, once a noted tourist hotel, at that address, will represent the New Rochelle, N. Y., home of Eddie Foy, famed comedian who died in 1932.

The shooting schedule is dependent on the weather, according to the Paramount publicity department, but it's a certainty that one of these days Bob Hope, star of the film, will drive up to the house with seven children of assorted ages, while the cameras grind away to record the scene. A number of exterior shots will be made, it is reported.

The old hotel, now owned and operated as an apartment house by Mr. and Mrs. Leland Marsh of Sierra Madre, appeared in a movie once before, a Barbara Stanwyck picture in 1948.

GOP Headquarters Opening Sept. 15

Republican Headquarters at 87½ W. Sierra Madre Blvd. will re-open Sept. 15, it was decided at a recent meeting of the Sierra Madre Republican Club executive board held in the home of the president, Harold F. Roberts, 306 E. Alegria.

Another meeting of the officers was slated for Sept. 16 and will be held in the headquarters. Attending the recent meeting were Mr. and Mrs. Roberts, William M. Hawkins Jr., president of the Young Republican Club, Judge John C. Mead, Mr. and Mrs. Richard Thayer, Mrs. Colin Timmons, Col. and Mrs. Walter D. Thuber, Charles E. Louk and Col. C. E. Morrison.

INCREASE IN CITY TAXES FORESEEN

Scheduled for the City Council meeting next Tuesday night is, both approval of the municipal budget, which is said to be the City's highest, and setting of the tax rate, also expected to show an increase.

In addition, City Atty. T. Guy Cornyn expects to bring in the proposed new business license ordinance which its sponsor, Councilman Lorne B. Pratt, predicts will, if adopted, bring an increase in City revenue of up to \$6000 per year.

City Administrator Lawrence Bevington, in his budget message Aug. 10, listed major proposed capital outlay expenses from the General, Park and Library funds as follows: City Hall improvements, \$3100; storm drain protection, \$8470; new police car and radio equipment, \$2,737; \$10,000 toward new fire engine; Special fund for capital improvements to Park, \$5000; and furnishings for new library building, \$3090.

Some \$92,000 in capital outlay from the Water Department would include: New well and pump, \$30,250; automatic equipment, \$4,800; new booster pumps, \$12,500, and for pipe line construction, \$16,800, among other capital expenses.

An increase of 25 cents in the tax rate is predicted. The 1953-54 tax rate of \$1.47 would be less by two cents for 1954-55 without the addition of two new levies, 15 cents per \$100 valuation for a municipal employees retirement fund and 10 cents for storm drain protection, and an increase of five cents in the library tax.

The Interest and Sinking Fund tax would be down by five cents and the Parks tax by two cents.

Rep. Hiestand Optimistic on Appropriation

In a telephone call to The NEWS Tuesday from Washington, Congressman Edgar W. Hiestand said he anticipated passage by the House "very soon" of the supplemental money bill for the fiscal year of 1954-55 which will, among other things, provide for the debris basins in Bailey, Auburn and Carter canyons above Sierra Madre and in Sawpit Wash above Monrovia.

The bill was passed recently by the Senate. Hiestand said he anticipated no difficulty in its passage by the House.

If this is accomplished and the Bill signed immediately by the President, the Los Angeles District, Army Corps of Engineers will then be in a position to award bids for construction on Aug. 27 when the bids will be opened. Specifications call for completion of the spillways by Dec. 1 and of the entire project by Dec. 15.

Hiestand said the Bill is the result of "a long hard fight," requiring constant alertness to prevent shelving of the appropriation applicable to the local area. He brought constantly to the attention of legislators the urgent need for additional flood control measures here, showing photographs and clippings illustrating the Montrose flood disaster of 1938.

URGE SUPPORTERS OF FLOAT ATTEND MEETING TONIGHT

The second meeting of the recently-formed Sierra Madre Float Association will be held at 8 o'clock tonight in City Hall at which time all persons interested will be urged to participate in furthering plans for a city-wide theme contest and for a fund-raising event in the fall.

Pledged donations to the Float Fund, entitling all contributors to membership in the Float Association, will be welcomed at tonight's meeting or may be mailed to the secretary, Mrs. Alyce Herold, 479 Auburn.

William M. Hawkins Jr., who headed the Coordinating Council's Float Survey Committee earlier this year, was named chairman of the association.

For the Consolidated game Sierra Madre changed their lineup somewhat. Tony Pascoe pitched and Jerald Perry played second. Pennock switched over to catcher position. Manager Ed Wodrich wanted to save Jerald for tonight's game.

All the playoff games last night.

So come on now, folks, let's get out to Brookside Park tonight and support your home team. Remember, the game starts at 7:30.

FUTURE CHAMP? Mrs. R. H. Barden's alderdale terrier, Franchamish ("Charley" to his friends) may be just that. At any rate, he made an auspicious debut in kennel club judging circles when he received the Winners Dogs purple ribbon at the San Gabriel Valley Kennel Club show Sunday in Azusa.

If you're not sure what a Winners Dogs award signifies, don't ask us!

In addition to the purple ribbon the local dog also captured a blue one as tops in the American Bred class.

Mrs. Barden and her handsome pooch are pictured here as they vacationed last spring in Nevada. They and the rest of the Barden family live at 400 Churchill Road.

MERCHANTS PLAN BIG DOINGS \$\$\$ FOR SEPT. 16-18

There'll be "big doings" in Sierra Madre Thursday, Friday and Saturday, Sept. 16, 17 and 18. For these dates have been selected by the Chamber of Commerce as "Dollar Days" and an outstanding merchandising event is promised.

Much special buying will be done by the participating merchants and the committee named to write success on the value packed days are Jim Wolfe, chairman; Virginia Sayles, John Reece and Ann Hurwit.

Funeral services were held Tuesday afternoon in Ripple Mortuary chapel for Mrs. Agnes Beatrice Tyree, 146 S. Hermosa, died Aug. 13 in a Los Angeles hospital where she had been a patient for slightly more than a month.

The Rev. Carl C. Smith of Los Angeles, former Congregational church minister here, and members of the Order of the Eastern Star conducted funeral service. Committal was private at Pasadena Mausoleum.

Mrs. Tyree was the widow of the late John William Tyree who died in December of last year. The Tyrees had been residents here for more than 30 years.

Surviving Mrs. Tyree are a daughter, Mrs. Pauline Lattin of Fallon, Nev., two stepsons, Russell E. and Ralph G. Tyree, both of Sierra Madre; two brothers, J. T. Railsback of Alhambra and Bryan M. Railsback of Austin, Tex., six grandchildren and 11 great-grandchildren.

Pomona's Band In 'Pops' Concert Here Tomorrow

Sierra Madreans will have a bonus band concert tomorrow night when the 65-man Pomona Community band, making its first appearance in San Gabriel Valley, presents a "pops" program starting in City Park at 8:15.

The appearance of the visiting band will give members of the Sierra Madre Concert band one of their first opportunities to listen and not "work" at a concert in its home park. Sierra Madre's band recently played in Pomona before a large audience.

Outstanding on Coast In the seven years since its organization, the Pomona band has become known as one of the outstanding volunteer groups of instrumentalists on the West Coast. Permanent conductor is Stanton Selby, director of instrumental music at Mt. San Antonio College.

He has announced for tomorrow night's concert a varied program of popular appeal, headline numbers being a mixed quartet singing a group of Rodgers and Hart Broadway show hit tunes, and Lou Dokken, baritone horn artist in an arrangement by Belsted of "Napoli," old Italian folk song.

Vocal Numbers Featured Four of the best known younger soloists in Pomona church choirs, Helen Selby, soprano; Ina Mae Shryer, mezzo-soprano; Paul Prout, tenor, and Virgil M. Harris, baritone, comprise the quartet which will sing such favorites as "Falling in Love with Love" and "Where or When."

Band number highlights will be: Gay's novelty arrangement of "There's Something About a Soldier," the "Triumphal March" from the motion picture, "Quo Vadis," by Miklos Rosza, and a Latin-American hit, "Rumbalero" by Camerata, with bongo drums played by Frank Hayek.

Rousing Marches The program also will include three lively military marches: Bridger's "Airborne Division," "World Events" by Zamecnik and "March of the Spanish Solidarity" by deSmet-sky.

In past summers the Pomona band has played a series of 10 weekly programs in Ganesha Park, Pomona, and has appeared twice at Idyllwild for SC's summer music session, at Riverside College, Anaheim, Brea and other neighboring cities. Earlier this month they played their second engagement in Hemet in the Ramona Bowl.

Meet Aug. 26 to View Flood Control Progress Councilman Harold F. Roberts has called for Aug. 26 a meeting of the council with chairmen of the area citizens committees which functioned on flood control last winter.

Also invited to attend will be representatives from the County Flood Control District, Army Corps of Engineers and others.

Coordinating Council Board Looks Ahead to a Busy Year

Tentative plans for what appears to be a busy season ahead for the Community Coordinating Council, were studied by the executive board at a meeting Monday in the home of the president, Mrs. Edith T. Dane, 209 Wilcox.

First event on the calendar, however, will be a social one, a patio party the night of Sept. 14 at the home of Mr. and Mrs. T. R. Bauerle, 250 Rancho Road, to honor presidents of the some 50 local organizations represented on the Coordinating Council. The party is scheduled for 7 p.m.

The Rev. Raynor Smith, vice-president of the Coordinating

group, was asked to screen requests by civic groups wishing to make use of the portable lighting and audio equipment recently presented to the City by the Sierra Madre Parent-Teacher Association. Groups wishing to borrow the equipment are asked to contact the Rev. Mr. Smith.

Walter N. Goodwin, past president of the Coordinating group was asked to undertake an investigation as to money and work involved in maintenance and beautification of the Sierra Madre cemetery and to report at the October meeting.

Preparation of the Community Calendar published in the NEWS each week of the active organization season, will be continued by the Coordinating Council, it was decided, with Mrs. Bauerle, newly-appointed recording secretary, in charge.

Local organizations scheduled dates for major events are asked to clear with Mrs. Bauerle, CU, 5-9767, to avoid conflicting events.

COURTESY CONTEST WINNER VISITS TO SERVICE CLUBS SET

John Kennedy, winner, and the runners-up in the recent "Clerk of the Month" contest recently sponsored by the Chamber of Commerce, will be honored guests at the Lions, Kiwanis and Exchange clubs in the near future, Anthony Cavalli, secretary-manager of the Chamber, said this week. They will be introduced by Jim Wolfe, who was chairman of the promotion.

Big Smell, Ditto Protest Residents File Complaint

A bad situation exists out on East Laurel Ave.

In fact it smells.

That's part of the complaint of residents in the 400 and 500 blocks on that street who, in a petition to the City protest that damage to their plantings and pride is being done by skunks. They say they believe the animals are coming from the City spreading grounds just east of them.

The petition has 22 signatures.

The skunk-plagued residents state that this has been going on nightly for at least two years and that they have complained to no avail to the Sierra

Madre police department and to the Humane Society.

City Administrator Lawrence Bevington, who promises to look into the situation from the standpoint of city responsibility, says that probably the skunks not only make the night air odiferous but eat the residents' shrubbery besides.

Chief of Police G. G. McMillan says there's nothing his department can do, that he thinks professional exterminators can take care of situations like this. Bevington proposes to find out whether or not the spreading basins are harboring an undue number of the furry little animals and to seal up their holes if possible.

Lee Shippey asks

What Do You Think?

A column like this brings in letters, but unfortunately many are unsigned. Last week, for example, came a letter signed "An Amateur" which was clever and provocative. But editors simply can't print letters for which no one takes responsibility. Someone may take umbrage, with or without cause, and accuse the poor editor of writing letters himself and signing fictitious signatures (a thing which has been done). And editors get so many kicks in the pants it is unfair to expect them also to have to take bangs on the head for things they did not write.

I'll always remember one editorial in which the writer

claimed all the merits he could for his paper and wound up by bragging: "And we do not write letters to ourselves!"

Allies are fine things when you need 'em. But it won't be the fault of two of our, Syghman Rhee and Chiang-Kai-shek if they don't get us into a third World War.

With all its race tracks, California has about 270 days of legalized race betting every year. Yet Californians eager to get rid of their money faster flock to Reno and Las Vegas. Now Baja California, especially Ensenada, may become "wide open" all next month, as a trial balloon. Truly the understate-

ment of the age is "There's a sucker born every minute." There must be at least 20 born every minute. A wide open town is one in which everything goes, especially your money and your morals.

Suckers for whom it is hard to feel sympathy are those who are fleeced by crooks who pretend to have money-making machines. Several persons in Los Angeles territory have appealed to police to catch swindlers who pretended to have machines which, by photography, would produce United States currency. That would be plain counterfeiting, a penitentiary offense, and if people behind the Iron Curtain were doing it we would be furiously angry. But these people who think they are Americans leap at a supposed chance to steal from their government.

Mark Clark is the latest general to embarrass the Eisenhower administration with declarations about what we ought to do about Russia and the U. N. Looks as if when some generals can't be shooting off their mouths, they can't be shooting off their mouths.

I don't own any stocks nor bonds, except a few U. S. Savings Bonds, but I don't like the actions of the New York Stock Exchange. Not many months ago total sales for a day frequently were fewer than 1,000,000 shares and usually they weren't much above 1,000,000. Later total sales frequently run above 3,000,000 — because so many people are playing the market. It is too much like the boom days of 1929 — just before the bust.

If the barbers raise the price of haircuts to \$2, and there is a bust — boy! What a land of longhairs ours will become!

Found Contrast - - France's Apathy, Spain's Enthusiasm

By VIRGINIA PITTINGER
(From the journal of her travels in Europe last year)

From Paris we went to Zurich and Geneva for several days, then swung back into France to go on to Lyons. To us, all of France seemed in a sadly apathetic state. The people are confused. They want very much to have peace in the world and to cooperate to that end. But, more than peace in the world, they want peace in France. They want peace with Russia without arming Germany. They want Germany to be nothing more than a defenseless buffer.

In other words, they want the impossible. And they have no leader—or group of leaders—to show them the way out of their dilemma. Their constitution is not working, their electorate is not working, their farmers are not working, and their problems are not being solved.

So... Great No More Frenchmen shrug their shoulders easily. France was once great, but she is great no more, they admit. She is poor and weak so she needs no longer accept the responsibility that goes with greatness. Solve the world's problems yourselves and leave her alone.

It is sad, that, because responsibility goes, not just with greatness, but simply with being. And long as France is, she must make the effort to solve her problems for there are those who are only too ready to step into the vacuum and do it for her—and in a manner perhaps not to her liking.

The condition exists—France is the sick man of Europe. But it need not persist. We hope that it will not, for the sake of France as well as for the sake of the rest of the world.

Warm Change in Spain
What a refreshing change it was to go from the cold cynicism of France to the warm enthusiasm of Spain! The manager, two bell-hops and a maid all trooped with us up to our hotel room in Barcelona to

show us its modern features.

"See here—a safe for your jewels, Senora," said one.

"And here," flourished another, a radio!

"Is not this ingenious, Senor? Without leaving your bed—psst—you push a button, the door is locked. And—psst—you push another, and it is opened!"

"For reading in your bed we have a special light that shines only for you. For the others it is like night if they want to sleep. Regard—this button—ah!"

"See now, we put a bed for the little one here—away from the window. Is that not good?"

And from the time we registered, there were never fewer than three maids in the room with us—making Risty's bed, turning ours down, testing the hot water, switching lights on, switching lights off, and just visiting to see the blond nino who looked exactly like his mother. We finally had to put them out when we got Risty tucked in and went down to dinner ourselves.

Dear Sir:

For several Thursdays past I have scanned the pages of your publication with the fresh, eager hope of finding therein a correction of the egregious error originally propounded in the column attributed to Verna Lumbard. My hopes, I now find, were not only futile, but grossly misguided. Now, it appears, there is a conspiracy afoot to perpetuate the error!

To elucidate, I refer to your advocacy of a French pronunciation of the name of our town.

The language spoken by the original European settlers of Southern California was Andalusian dialect of the Spanish tongue. These were the people who gave us most of our place names. I feel that the Andalusian pronunciation of these place names is most fitting and proper; furthermore, if this is not to be used, I see no justification for urging a French pronunciation; wouldn't it be more proper to Anglicize the name? In my judgment, to use an English pronunciation of these place names is much more appropriate than to affect a French (or even a Castilian) pronunciation.

Yours very truly,

Huntington Exhibit Marks Centennial of Thoreau's 'Walden'

August marks the 100th anniversary of one of the most famous books in American literature, "Walden, or Life in the Woods," by Henry David Thoreau. To commemorate the anniversary, the Henry E. Huntington library in San Marino will have on exhibit in the main hall for the remainder of the summer the original manuscript, the first edition and the printer's page proof of the great American classic.

On the page proof of "Walden" are corrections in the handwriting of the author. A comment by the compositor in the margin of one page states, "Can't read the manuscript."

The Huntington library's "Walden" manuscript consists of 628 leaves which are parts of several versions, including the earliest, from which Thoreau composed his final published work.

U. S. production of coke in 1952 was four times that of England, and twice as much as the estimated Russian production.

Little League Play Full of Excitement

By BOB BROGGER

Anything can happen in this Sierra Madre Little League.

Last Thursday the "impossible" happened.

Sacramento slaughtered Los Angeles, 17-2. Tiny Scalzo's men (Sacramento) now have a seasonal record of 2 wins, 11 losses.

San Diego has a strong hold on first place right now but Hollywood seems to be creeping up, slowly but surely.

These 9- to 12-year-old over-hand ballplayers are right in there playing hard, every game. And you should see the grown-ups that turn out for these daily twilight games on the City School ball diamond.

Miss Dailey flew to New York City with a stop-over in Washington, D.C., where she visited her brother and sister-in-law, Major and Mrs. John Dailey. She made the Atlantic crossing on a U.S. Army transport.

Overseas teaching is not new to the Sierra Madrean since she taught six months at Clark Air Force base in the Philippines two years ago. Currently she is on a leave of absence from the Monrovia City school system.

Los Compadres Host Noche de Serenata This Saturday Night

Mr. and Mrs. Glenn Nichols, 190 S. Canon, relative newcomers to Sierra Madre, are aware of the interest here in the Spanish customs of California's early days. They are therefore telling acquaintances here about and working for the success of an event scheduled for Saturday night in San Gabriel.

Moving the calendar back 100 years to the colorful fiesta days of Early California, is the objective, they say, of the Los Compadres of San Gabriel when they present their third annual Noche de Serenata to provide funds for the staging of their annual Christmas play, Los Pastores and Las Posadas at the Mission Playhouse in December.

Members of the club, dressed in colorful early California costumes, will welcome their guests and the general public at the San Gabriel Woman's clubhouse which will be transformed into a fiesta setting with serenading mariachis and gay señoritas dancing to the fast tempo of Latin music.

From the cocina will come the savory aroma of foods identical with those served on the tables of the great haciendas of the past. Dinner will be served from 7 to 9 p.m.

From 9 to 12 p.m. the popular Don Jose Arias and his orchestra will furnish the music and all will join in dancing La Raspa, La Varsoviana and other Latin and modern dances.

Vance Graham, radio and television producer, will act as master of ceremonies.

Noche de Serenata, with its nostalgic revival of century-ago fiestas, has become an annual event of great popularity.

Capt. D. E. Sayer Has Visit with Mother

Henderson-Stinman Nuptials Aug. 16th

Mrs. Ocella Mable Stinman, 69 E. Sierra Madre, and Thomas Henderson, 85 E. Sierra Madre, exchanged nuptial vows Aug. 15. Rev. Raynor Smith read the marriage service.

Close friends and relatives gathered at the home of the bride's son-in-law and daughter, Mr. and Mrs. Charles Peterson, 71 Suffolk, to witness the ceremony. The couple was married before an altar fashioned of palms and candelabra at one end of the patio.

A reception was held immediately following the rites. Tables were arranged around the swimming pool. The wedding cake was centered on a table decorated with candles.

The bride was attired in a ballerina length orchid nylon gown and carried yellow carnations. Her grand-daughter, Muriel Peterson, was the maid of honor and she wore a pink nylon dress with a bouquet of pink carnations.

Mr. Peterson served the groom as best man. The ushers were Clark Marshall and Danny Peterson, the bride's grandson.

Frank Weber provided organ music before and during the wedding. Her daughter, Patricia, accompanied him on the organ when he sang "Always."

The newly married couple have planned an extensive motor trip which will take them to Canada and through the eastern states.

MR. AND MRS. Louis Devren
lensk and Mr. Devren is a native of Shamov.

Prior to their marriage, Mr. Devren served in the Czar's army and when he was beckoned again, shortly after his wedding, to serve in the war against the Japanese, he and his bride left the old world to come to America.

The Devrens combined their talents with determination and set about making their way in their chosen country, Mrs. Devren as a clothing designer and

her husband as a musician. As their children arrived the Devrens' happiness and success increased to the extent that no troubles were insurmountable, they recall. Soon they found themselves in a position to help others and thus began years of charitable work.

The Devrens' oldest son, George, is a television and radio conductor in Chicago, with CBS. The oldest daughter, Mrs. Rose Milner, makes her home in Hollywood and is married to Dan Milner, movie director and producer. The other daughter, Monette, was a school teacher in the Los Angeles area and is now married to Dr. Fred P. Veiner, west side dentist. The youngest son, Erwin Howard, also has made his mark in the music world as a performer and musical agency operator in the nation's Capitol. The Devrens have seven grandchildren and one great-grandchild.

Here 47 Years

Mr. and Mrs. Devren first came to Sierra Madre 47 years ago because of Mrs. Devren's health. They are now living in the Canyon at 533 Sturdevant Drive.

The four children and their families joined in last Saturday's celebration.

Those charities and religious groups that have benefited by the Devrens' work and aid are the Talmud Torah Congregation of Breed Street, Mt. Sinai, Leho Morovim, Hadassah, Ladies' Auxiliary of the Jewish Academy, Congregation B'nai Israel, City of Hope, Misrachi, the Jewish National Council and Fund.

Bill has been stationed at Camp Stoneman, serving as psychologist in the neuro-psychiatric clinic there. This past week he was transferred to Letterman hospital, Presidio, San Francisco, where he will serve in a similar capacity. Bill is a graduate of Pomona college, Claremont graduate, and just prior to entering the Army was on the clinical psychological staff at UCLA where he was working toward a Ph.D. degree in psychology.

BOYD LOWE TAKES OVER MANAGEMENT OF LYRIC THEATER

Boyd Lowe, formerly of Culver City, last week assumed the operation of the Lyric theater in Monrovia as resident manager succeeding Arthur Price who has gone to Long Beach.

Lowe, for the past 10 years has operated theaters in Culver City and Los Angeles and is active in civic organizations, including the Optimists Club and the Chamber of Commerce.

'Don't Skimp on Library Now' Taxpayer Advises in Letter

FEELS LIBRARY TAX REQUEST 'TOO MODEST'

Editor
Sierra Madre News

Is it not possible that the Sierra Madre Library board is being somewhat too modest in asking for an increase of merely "from \$.03 to \$.12 in its tax levy in this year of building the new library?"

With construction forestalled by the lumber strike and increase in lumber costs, besides the fact that the libraries, already built, of two neighboring cities are receiving appropriations of \$.22 and \$.29 would make a total library tax of \$.25 per \$100 valuation for the coming year. Perhaps it should be more.

With appropriations being allocated for increase in City salaries, street and fire department equipment and other matters—all most worthy and urgent causes—it is not the time to hamper the library program by skimping.

No apology is needed for asking generous treatment just now for a project which offers education to the whole population from infancy to old age every month in the year. The library is the repository of the best thoughts and finest literature of all historic time, as well as information on current science, economics and social progress. It provides entertaining, informative and wholesome reading for children as a mind-feeder in place of the flood of criminal trash that constantly inspires juvenile delinquency.

Sierra Madre's new library should have nothing less than adequate size for future as well as present needs; it should be ventilated in the best modern manner, well-lighted and air-conditioned, and so comfortable in every detail that it will attract young and old, in all weathers, and make learning an enticing pastime.

According to Councilman Lorne Pratt's very useful survey, our present tax rate for Sierra Madre public schools is \$.238, beside which \$.25 for the expansion of our City's library seems to me modest picking indeed.

As a taxpayer, I welcome my opportunity to pay my share for both.

Mrs. L. P. Randall Entertains Visitors

Mrs. Lillian Paula Randall, 441 Ramona, has been entertaining three out-of-town guests. Her niece, Ann Haeussler, a voice and piano major at the American Conservatory of Music in Chicago, has been taking a summer course in drama at Whittier College as well as visiting her aunt. The drama students at the college have been presenting melodramas at Knott's Berry Farm. Miss Haeussler is the daughter of Mrs. Randall's brother and his wife, Dr. and Mrs. Armin Haeussler of Evansville, Ind.

Angiola Sartorio, Italian born choreographer, is having a vacation from her New York home following her work with Yurek Lazowsky in the production of the eastern summer ballet, Arabian Nights. Life magazine recently carried a picture of the whole scene from ballet on their cover.

Gertrude Klaris Bedell, originally from Hungary and now living in New York, is internationally known as an artist-designer of stained glass windows. She also has designed many of the costumes for Miss Sartorio's productions.

The visitors have been friends for many years, even before they came to the United States. Miss Klaris received one of her first honors from Miss Sartorio's father, Aristide Sartorio, famous Italian painter and vice-president of the Accademia d'Italia.

The two friends are currently producing a book on ballet with Miss Sartorio as the writer and Miss Klaris, the artist.

July Postal Receipts Up Over Last Year's

Despite the fact that July is regarded as a light month in the post office business, Assistant Postmaster Arthur H. Embree reports that receipts for July of this year reflect the increase in activity which has been apparent since the first of the year.

Sales last month of stamps, stamped envelopes, metered and un-metered mail, together with second-class mailings and collection of box rents, totaled \$8,177.60 as compared to a July, 1953, total of \$6,349.39.

Postmaster Eddie D. Robertson continues on sick leave. He is now at home, 490 N. Sunnyside, after a long period of hospitalization.

Treatment of Polio by Chiropractic

Polio, the great crippler, is one of the most dreaded diseases of modern times. The present season is the period of greatest prevalence and daily announcements on the radio and in newspapers cause parents to pause and seriously consider the preventive measures which will give greatest protection for their children.

Only a few days ago a member of the board of the National Polio Foundation stated (off the record) that there is no certainty whatever that polio is contagious. Chiropractic research into the primary causes and preventive measures of polio is extensive. Years of investigation in thousands of polio cases lead chiropractic researchers to concur in the opinion that fatigue, injury as in falls, undue exposure to heat or cold, and nutritional deficiencies are all contributing factors.

Correction and treatment of both acute and chronic polio by chiropractic methods have been unusually successful. "Science Sidelights" reports startling results in a national survey of chiropractic methods of treating polio:

In 662 acute cases complete recovery in 445 cases (71.5%).
In 889 chronic cases complete recovery in 257 cases (28.9%).

Marked improvement in 454 cases (51.1%).
Slight improvement in 178 cases (20.0%).

But Prevention is the Big Thing which must be given first place in the councils of every family with children right now. Read this column for basic preventive measures next week.

The bride was attired in a short-sleeved bodice fashioned of white lace and tulle over taffeta. Her French illusion veil was held in place by a Juliet cap of matching lace. The bridal bouquet was of stepanotis and lilies of the valley arranged around a white orchid.

The bride's sister, Theresa Marzolino, was the maid of honor and wore a royal blue dress and carried a nosegay of roses. The bridesmaids, Mrs. John Barens, sister of the groom, and Carmelita Stamsek, were gowned in pink over blue nylon tulle dresses and carried nosegays.

The groom's best man was Mr. Barens and the ushers were Sam Antista and Donald Shumacker.

A reception for 150 guests was held at the Sierra Madre Woman's clubhouse immediately following the ceremony.

The newly married couple will make their home in Arcadia following a honeymoon in Northern California.

School Sets Dances, Parties for Year

The Hastings Ranch Nursery School organization, in a little more than a year, has done much to cement community relations through its social events as well as its cooperative educational facilities.

Those who haven't been able to take advantage of the nursery itself have enjoyed dances, swimming and bridge parties arranged by a hard-working ways and means committee. And, with a new school year starting soon, chairmen for coming events are being announced.

Mrs. Lewis J. Ross Jr., Ways and Means chairman this year, lists Mrs. Edwin Cowan as chairman of the Harvest Ball in October and Mrs. Victor Coffee chairman of the Cotton Ball in the Spring. Mrs. Gordon Wright will again head the bridge tournament and Mmes. Merrill and Orville Johnson are in charge of a home and garden tour being arranged for the spring.

Four large bridge parties are planned, two in the daytime and two in the evening. These will replace the number of small parties which have brought in much revenue to provide equipment for the school. Dates and locations of all these events will be announced later.

Although he can walk now, his only apparent result of the disease is a weakness in his legs which should clear up completely in a year.

Debbie and Foss are children of Dr. and Mrs. Elmer Morton, 3735 Shadow Grove. Mrs. Morton reported the children, stricken July 18, as getting along fine. Introducing...SIERRA MADRE'S BUSINESSMEN

The sixth in a series
about Sierra Madre's
business establishments and
the men and women who
own and manage them—

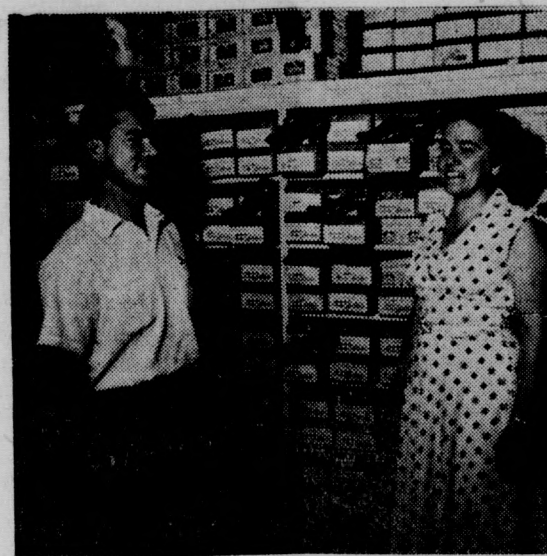

When Neighborly Courtesy Cuts Your Day in Half!

Neighborly courtesy, normally-crowded departments and leisurely inspection are characteristics of shopping in SIERRA MADRE. Many local people find their buying time cut in half because of these unique advantages. As a rule, normal crowds permit selection of the choicer styles, shapes, textures and colors.

You'll always experience a gracious, personal interest shown by the sales staffs of local stores. Most of these people are local residents, too, and they WANT to please you . . . so that you will come back again. Your opinion of "their" store is a matter of neighborly pride to them.

Naturally, you can accomplish more in less time when YOU trade among local friends. The pleasure begins with rapidly-improving parking facilities. Next time you're tempted to go elsewhere, remember how worn out, tired and frustrated you felt on your last trip out-of-town. Prove to yourself it's smart to trade at home!

RALPH and ANN HURWIT
Ralph's Family Shoe Store
41 N. Baldwin

THE FOUNTAIN OF YOUTH, so far as history is concerned, has never been anything but a myth—but anyone who would like to dip into an "Atmosphere of Youth" will find it the easiest thing in the world simply by visiting Youngland at 34 N. Baldwin. The store, with its attractive 25-foot front, goes back to a length of almost 100 feet to make room for all the clothes, toys, shoes, gifts, furniture, tricycles, play pens, jewelry, and other items that may be bought there for boys and girls from infant age to 14. . . . Proprietors James H. Wolfe and his wife, Jane, are "mostly" from West Virginia. Although he was born a "Hoosier" in Indiana, Jim was reared in Morgantown, West Virginia, where he later attended the University of West Virginia. Studying to be a public school music teacher, he played almost every kind of musical instrument during his career with school orchestras and local dance bands. . . . When asked how he met his wife, Jim says they were never introduced! Seems that he and Jane had heard of each other through mutual friends, so when they passed on the street they eventually allowed themselves a shy "hello!" How they got over being shy is nobody's business, but

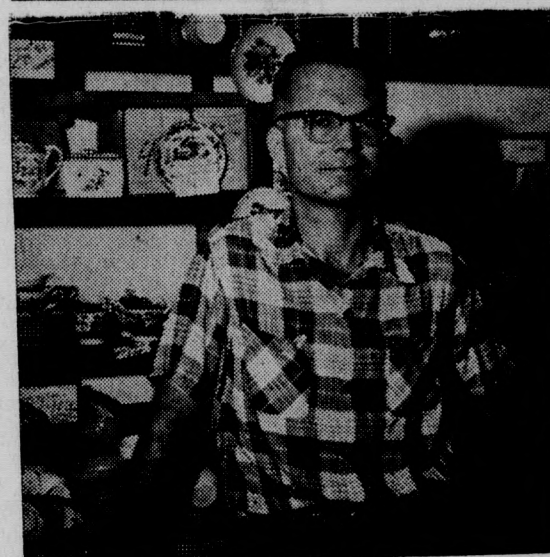

THERE'S A "STAGE" SETTING in Sierra Madre that might lend background for any playwright who accents human interest. It's a place where you may see dignified oldsters bringing some of their problems to the Repair Department, a young mother on an errand in the main store with her toddling daughter—both of them barefoot—or you may watch a very young man pay 75 cents for horseshoe plated heels with 50 pennies plus a precious two-bit piece borrowed at the last moment from a wealthy companion. . . . The place is Ralph's Family Shoe Store—and it's well named. Within a single hour you may see customers of all ages moving in and out as if Grand Central Station had been transplanted to 41 N. Baldwin. Owners Ralph G. Hurwit and his wife, Ann, are responsible for drawing such crowds because they sell shoes and orthopedic constructions to everyone from the penny-saving age to the elderly grandparent who may be dealing in nothing but stocks and bonds. . . . Ralph and Ann are from Long Island, N. Y., where they met when they were both 14. It was a Halloween party, and Ralph wore a military uniform belonging to an older brother in Stauton Military Academy in Virginia. He made such an impression on Ann that

even after he had to give up the uniform she decided she still loved him! . . . After Ralph majored in math and languages in City College of New York, he moved to Los Angeles to work for a shoe company in 1935. One year later he sent for Ann, who "flew out by bus." They traded Los Angeles for Sierra Madre in 1937 because Ralph's aunt and uncle, Molly and Joe Weber, had liked it here since the early 1920's—and because the town seemed like a nice place to make a home for Ann's first baby. . . . During World War II Ralph held two fulltime jobs—one with the shoe company, the other in a defense plant. Then, in 1945, he bought Olsen's shoe store at 34 N. Baldwin. Business grew, so they moved across the street in February, 1947, to enlarge their stock. But to get the new space from the former tenant they had to buy four pool tables! . . . Their most active hobby is not pool, but "rockhounding"—which takes them on camping trips with their two sons and a daughter to hunt for minerals and semi-precious stones. . . . The initial—G.—in Ralph's name stands for Gabriel, but he's a Gabriel who seldom blows his own horn. He likes the sound of it better when the "music" comes from his customers—in harmony!

JIM and JANE WOLFE
Youngland
34 N. Baldwin

the record has it that they were married August 6, 1927, while Jim was still attending the University. . . . When he discovered the kind of salaries teachers make, Jim took a job with the city in construction work and later moved to a household appliance firm in Morgantown where he won several sales prizes and was promoted to sales manager. Although he had seen a bit of World War I by "upping" his age, he enlisted for the second one, entering the Signal Corps Officer School at Fort Monmouth, N. J., in 1942. . . . After the war, he taught a course in salesmanship at Morgantown Business College from 1946 to 1949—but by that time they had heard so much about California through friends and "travelogues" that they had to come out to see for themselves! . . . Jim and Jane are members of the Methodist Church here, and he belongs to the Chamber of Commerce. She joined the Woman's Club soon after they moved to Sierra Madre in 1953, likes to paint with oils, and they both are golf enthusiasts (when they have time) . . . Jane also goes in for bridge, which is how they found their business and their home in Sierra Madre—through a conversation during a bridge benefit at a church in Pasadena!

JOHN REECE
Reece 5-10-25c Store
22 W. Sierra Madre Blvd.

YOU NAME IT, and if they haven't got it, they will be the first to send you to a neighboring store that specializes in the particular product you seek. Their only specialty is VARIETY—a little bit of almost everything, but not a truckload of anything. That's why, with all their versatility in covering a broad field, they still aren't too much in competition with anybody. . . . Who are "THEY?" That's so easy you've probably guessed it by now. "They" are John Reece, his wife, Frances, plus the three, and sometimes four, employees at the Reece 5-10-25c Store. . . . How anyone can learn to select the stock for such a versatile store is a question that would come to the mind of any businessman. Considering the importance of keeping merchandise moving, one can't help but wonder how John Reece, a Californian who formerly worked for Pacific Bell Telephone and then an engineering company, could learn the knack of operating a store that offers kitchen ware, paint, electric appliances, clothes, toys, stationery, cosmetics, buckets and baskets and bird cages, AND greeting cards, house dresses, sports hats, bluejeans, canners, candy, cornpoppers, and DOG COLLARS! . . . That's only a small

part of it, brother! It would be hard to say what they DON'T have in that fabulous store! . . . John learned it because Frances had had experience in her father's department store in Covina, where she was born, and because the two of them have given careful study to the needs of Sierra Madre shoppers ever since they bought the store from the Coronet chain in January, 1948. . . . John, a Pasadena by birth, met Frances while she was attending UCLA. He had studied journalism at Pasadena Junior College, accompanied by an interest in poetry, cartooning, and writing short stories. Since his marriage in 1938, however, he has preferred swimming and record collecting—music, that is. He likes both classical and jazz—especially the latter when he discovered that his old Gennet record of Hoagy Carmichael playing "Stardust" is now worth \$50! . . . He and Frances have 9-year-old twins—Craig and Cathy—both of whom have been reason for his believing that a man should follow his own advice to others. For years he believed that all expectant parents should buy "Twin Insurance" from Lloyd's of London, but when it came his turn to invest he decided that twins could NEVER happen to him!

'London Crusade' Film Show Set for Sunday at Bethany

"London Crusade," an hour-long documentary film of the three-month evangelistic campaign held by Evangelist Billy Graham, will be shown at Bethany Church at 7:30 p.m., Sunday, Aug. 22.

Filmed entirely in England, "London Crusade" is Britain's own story of Evangelist Graham's campaign. Narrated by the Bishop of Barking, one of the leaders of the Anglican church, the film saga is said to be a gripping portrayal of the events as they transpired.

Beginning with scenes of the Grahams' arrival at Waterloo Station, the film moves on to the opening at Harringay Arena. It then covers the entire series of services, concluding with the great White City and Wembley Stadium meetings, where a total of 200,000 gathered for the closing rallies.

The doors to Bethany church will be open at 7 p.m. for the

The life expectancy for women in India is a little under 32 years, compared to 71½ for American women.

Guest Minister Poses Query: Will God Use the H-Bomb to Further His Will on Earth?

Preaching in the Sierra Madre Congregational church, the Rev. Harry P. Leach of Pasadena stated that "perhaps the elements of hydrogen and uranium will be used to further the will of God in His world."

Who knows? Developing the theme that God and His universe are on the side of right and against wrong, the preacher told the ancient story of Israel defeating Siser's army and of Deborah's belief that heaven had intervened to give Israel the victory. "They fought from heaven; the stars in their courses fought against Siser."

Citing more Biblical illustrations in which it was believed that God by means of hail and storm helped Israel in her time of need the preacher went on to say that the universe is so made that it is against all wrong and on the side of right and that that conviction is imbedded in human instinct. He declared that it may not be easy to demonstrate decisively this principle, that there were difficulties; but that it was a truth to be felt rather than proved. It appealed to the instinct rather than the reason.

God's Intervention. After the storm wrecked the mighty Spanish Armada upon the coasts of Scotland, Queen Elizabeth believed sincerely that God had intervened to save Protestant England from the tyranny of Catholic Spain. The Queen struck a medal with the inscription, "God blew upon them and they were scattered."

Napoleon, defeated by the severity of a Russian winter, retreated from Moscow leaving three fourths of his great army dead in the snow. His lust for power and conquest frustrated, Napoleon ruefully said, "God Almighty has been too much for me."

"We moderns," said the preacher, "might say that these are mere coincidences and yet I am not sure that our fathers were their simpler faith were not nearer the truth when they believed that God used the elements of nature to further

World Church Council Gives Sermon Theme

Methodist Family Event, Supper Set Tonight

Taking his theme from the meeting of the World Council of Churches which is in session at Evanston, Ill., the Rev. Raynor Smith will preach on the subject "Wings" at the 11 a.m. worship service Sunday. As one of the 163 churches making up the fellowship of the World Council of Churches, the Methodist Church joins the churches from 50 nations in proclaiming, "Christ, the Hope of the World." This affirmation will be developed in Mr. Smith's sermon on "Wings" this Sunday.

Colored slides on the national parks of Zion, Bryce and Grand Canyon will be featured as the program for Family Night at the Methodist church tonight. There will be a covered dish supper at 6:30 p.m. The public is cordially invited, but those planning to attend are asked to contact Mrs. Fern Niedringhaus at CU. 5-2309 to indicate what they will bring in addition to their own table services.

The colored pictures which will be shown during the program were taken by Mr. Smith during his camping trip in July. The entire family is welcome.

At the meeting of the Woman's Society of Christian Service last Friday it was voted to hold a bazaar in October. Anyone who would like to help in this coming event is invited to contact Mrs. Murray Harris, president of the local Methodist woman's society.

HAVE VALVES ADJUSTED

The engine breather through its valve system, points out the National Automobile club. Before starting a long trip, make certain that the valves are correctly adjusted. It is a quick way not only to efficiency of operation, but to a significant saving of fuel on the long trip.

God—the Only Mind, Says Lesson-Sermon

"Blessed be the name of God for ever and ever: for wisdom and might are his: . . . he giveth wisdom unto the wise, and knowledge to them that know understanding," reads the golden text from Daniel (2:20, 21) in the Christian Science churches on Sunday. The lesson-sermon is on the subject "Mind." It stresses God's nature as the source and substance of intelligence and consciousness.

From the Bible the following selection will be read: "There was a little city, and few men within it; and there came a great king against it, and besieged it, and built great bulwarks against it. If your wise man, and he by his wisdom delivered the city; . . . The words of wise men are heard in quiet more than the cry of him that ruleth among fools. (Eccles. 9: 14, 15, 17).

In "Science and Health with Key to the Scriptures" Mary Baker Eddy says, "Acquaintance with the Science of being enables us to commune more largely with the divine Mind, to foresee and forestall events which concern the universal welfare, to be divinely inspired—yea, to reach the range of fetherless Mind." (p. 84).

"KINGDOM IS COME" RELIGIOUS SCIENCE TOPIC

Vivian May Williams will be guest speaker at Santa Anita Church of Religious Science, 178 S. Rosemead Blvd., Pasadena, Sunday morning at 11 a.m. Mrs. Williams' subject is "The Kingdom is Come."

August 26, the topic of the Thursday evening meeting will be "Treat Yourself to Love." Meetings are held at 8 p.m. at the church and are open to the public.

CROP FOR ETERNITY

If you want to raise a crop for one year, plant corn. If you want to raise a crop for decades, plant trees. If you want to raise a crop for centuries, raise men. If you want to plant a crop for eternities, raise democracies.—Carl A. Schenk.

Police Arrest Wetback Here

Police officers William Mackie and John McDonough, on routine patrol Saturday night, decided to stop and ask questions when they saw a large hat with a man under it sitting on the grass in Bailey Canyon in the vicinity of the Monastery.

They didn't get very far with their questioning of the man with the hat because he could not speak English... and they couldn't make out his Spanish patois until they took him in to the station and got an interpreter from the Arcadia police department.

It appeared to be a case of illegal entry. The suspected "wetback" was booked as Bartez Martinez of Bar-1 Ranch, Durango, Mex., given a shower and a meal and then turned over to U. S. Immigration authorities.

INDISPENSABLE?

When a man swells up with the notion that nobody else can handle his job, it isn't long until there is a strange name on the payroll.—Exchange.

An Army general is accused of building a \$1200 dog house. He must have known that some day he'd have to ask his dog to move over.

BEDROOM WINDOWS

Did you ever try to place twin beds in a room that was obviously designed only for a double bed? Or vice versa? It's the windows that handicap you in the arrangement of bedroom furniture.

If you'll use our Halco horizontal-sliding windows, placed 4 feet or more above the floor, you can choose any wall spot you like for your furniture.

Think, too, of the increased privacy! Yet you get the same light and ventilation.

Our Halco unit is on display at our yard. Drop in and see it.

MACK'S GARAGE OPERATING UNDER NEW OWNERSHIP

In their third week now as new owners of Mack's Garage, 25 E. Sierra Madre Blvd., and getting better acquainted with their customers every day are partners Cecil Hanson of Mayflower Village and George A. McCullough of Sierra Madre. These two plus their tune-up experience in the automotive repair field.

Hansen and McCullough took over operation of the garage Aug. 2 succeeding Murdo McIvor from whom they purchased the business.

Their aim, they say, is "to continue the same type of service that Mack's is known for and to better it—if possible." They are equipped to do general repairs and motor overhauling and specializing in brake work and complete tune-ups.

Hansen's most recent connection, eight and a half years, was with Verne Orr Chrysler dealers in Pasadena where he became acquainted with his present partner. McCullough for the past four years, though, has been with Pierson Studebaker in Pasadena.

Qualifications for the older children are a knowledge of all the basic swim strokes and of at least two dives. Age groups are as follows: Children under 8 years; 9-10, 11-12, 13-14, 15-16 and, those over 16. A trophy will be awarded to each of three winners. Contributions to the trophy fund will be welcomed, Mrs. Smith states.

Objective of the contest, she points out, is not to have the youngsters eyeing their accumulating points and mileages but to stimulate their interest in developing and improving their strokes.

NEWLYWEDS

The newlyweds just got off the train. The blushing bride was a bit self-conscious because of all the people about. "Henry, dear," she whispered, "let's try to make these people think that we've been married a long time." Sure thing, sweet," agreed hubby heartily. "Here, you carry the suitcases."

SO THAT'S WHY!

The only reason a great many American families don't own an elephant is that they have never been offered an elephant for a dollar down and a dollar a week.—San Luis Obispo County Mason and Eastern Star.
